MASTERING THE MAGDI PROCEDURE

in weight loss and type 2 diabetes treatment

We cordially invite you to an exclusive clinical masterclass focused on Magnetic Duodeno-ileostomy (MAGDI)—a paradigm-shifting, staple free suturless approach in weight loss management, type 2 Diabetes and Metabolic Syndrome.

Originally conceptualized by the renowned bariatric pioneer Dr. Michel Gagner, this procedure has been successfully pioneered and refined in Georgia by Professor David Abuladze since 2021. The program is driven by an elite multidisciplinary collaboration, featuring Professor David Abuladze and lead endoscopist Dr. Levan Koiava.

WHY EVOLVE TO MAGNETIC SURGERY?

As the landscape of metabolic intervention evolves, the MAGDI procedure presents an opportunity to redefine your surgical standards. Join the forefront of the metabolic revolution by mastering an innovative technique designed to optimize both safety and efficacy.

CORE CLINICAL ADVANTAGES

The Application of Magnetic Technology

Learn the protocols for creating a secure, side-to-side anastomosis utilizing FDA-cleared magnetic devices, effectively eliminating the need for traditional staples or sutures.

True Incisionless Methodology

Master an innovative procedure that requires no cutting of the stomach or bowel, thereby significantly mitigating the risks of anastomotic leaks and surgical trauma.

Optimized Patient Outcomes & Rapid Recovery

Equip yourself to offer patients a transformative therapeutic option characterized by a rapid 24-hour discharge window average metabolic weight loss of 10-25 kg, control diabetes type 2 without medications.

Surgical & Endoscopic Synergy

Gain actionable insights into the precise, dual-specialty coordination necessary to successfully execute and implement magnetic procedure in your practice.

WHO SHOULD ATTEND?

- **General and Bariatric Surgeons**
- **Endoscopists**
- **Endocrinologists**
- **Clinical Nutritionists**
- **Healthcare and Clinical Managers**
- **Medical Device and Distributor Representatives**

Step into the magnetic era of metabolic care
